

FLEXMOD CHARGER

**NO CHARGER IS MORE
EFFICIENT OR RELIABLE FOR
YOUR BATTERY FLEET.**

Features & Benefits:

- ▶ Peak efficiency 94%
- ▶ Power factor 95%
- ▶ Multi-voltage/DC capable
- ▶ Multi-AH capable
- ▶ Small, lightweight modular design
- ▶ Conventional, opportunity or fast charge
- ▶ Shelf or wall mount without additional bracketing or supports
- ▶ Bright easy-to-read graphic icon display
- ▶ California Energy Commission (CEC) approved
- ▶ cUL listed
- ▶ Low energy costs
- ▶ Increase driver productivity
- ▶ Less time on charge
- ▶ Reduce or eliminate battery changes

-  **Conventional**
-  **Opportunity**
-  **Fast**
-  **Lithium**

POWERHOUSE FLEXMOD CHARGER

INTELLIGENT CHARGING WITH THE LATEST TECHNOLOGY

Changing batteries takes time away from moving product and can lead to accidents. Our HF series high frequency chargers allow you to keep the battery in the truck saving time and keeping the work place safe.

Intelligent modular designs delivers redundancy. Power continues to flow to your battery under circumstances that shut down most chargers.

Wireless communication between the FlexMod Charger and the TOBi Wi-Z Battery Monitor optimizes every cycle, every time.

Graphic Icon display allows quick identification of charge status and "ready" battery. 24 pre-loaded charger algorithms to charge any battery chemistry, including Lithium Ion.

CHARGER COMMUNICATION:

P46-303 Control Wireless

Communication from charger to computer.

BATTERY COMMUNICATION:

TOBi PI Wi-Z

Wireless communication between battery and charger and battery and computer.
