

Power That Moves You.™

The Power Behind Performance.™

CROWN
BATTERY
SINCE 1926

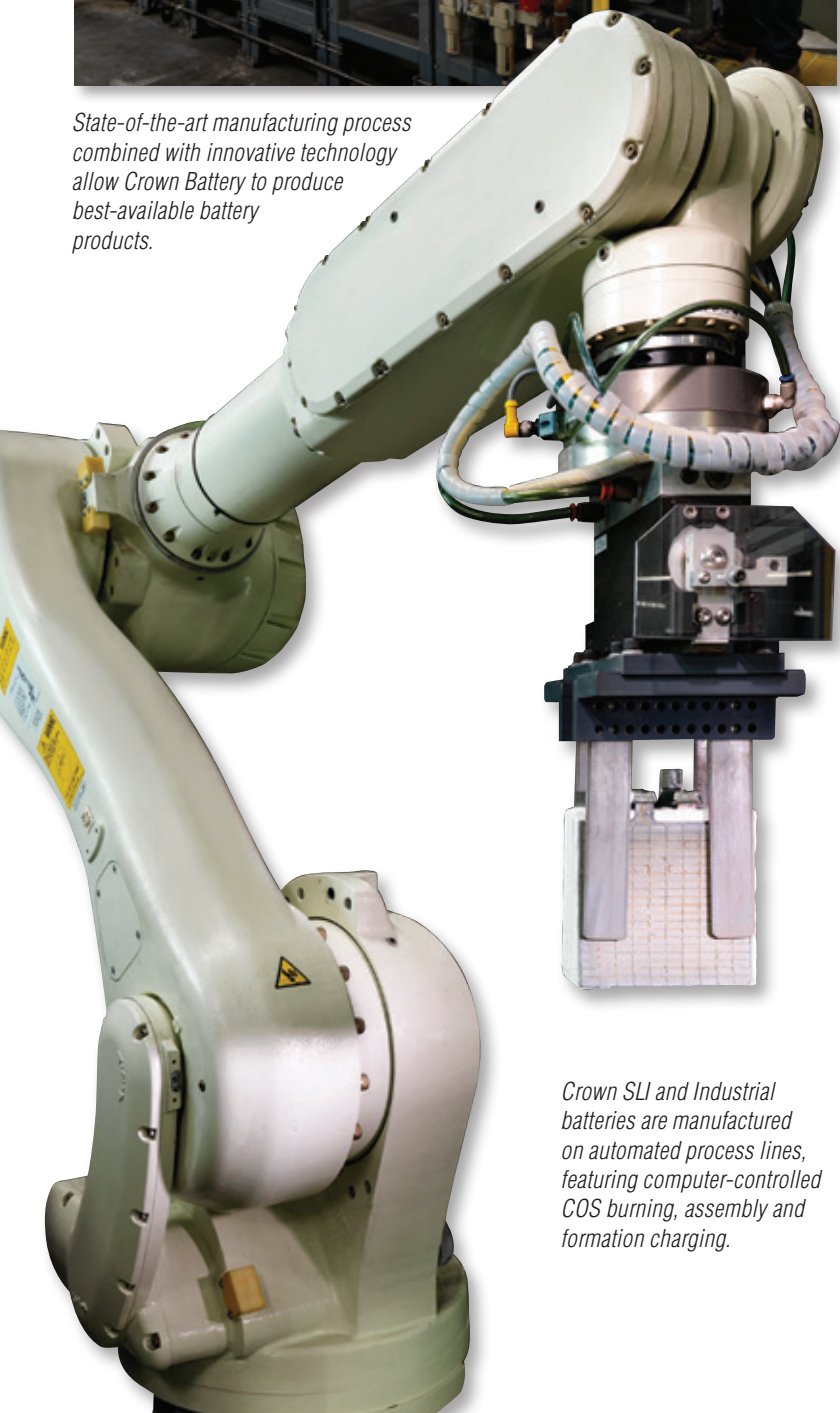

CROWN BATTERY MANUFACTURING CO. | FREMONT, OHIO | MADE IN THE USA

Power To Perform.

State-of-the-art manufacturing process combined with innovative technology allow Crown Battery to produce best-available battery products.

Crown SLI and Industrial batteries are manufactured on automated process lines, featuring computer-controlled COS burning, assembly and formation charging.

In

1926, William J. Koenig, a seventeen-year old German immigrant, opened the doors to a small battery repair shop that served customers in Fremont, Ohio. Today, through years of entrepreneurial hard work, Crown is pleased to open its doors to a single battery market, too: The World.

Wherever industries need to start working, they turn to the dependable power of Crown Batteries. Crown Battery has a history of bringing an extra dimension of product innovation, customer support and product quality to industry. That's why you find Crown Batteries in heavy-duty equipment on- and off-highways all over the world. Throughout the railroad industry, moving freight efficiently to global markets. Our batteries are powering underground mining equipment in the Americas, Africa and Asia. They can be found in steel mills. Renewable energy systems. In the recreational marine and automotive industries. And our golf and EV batteries are taking more people to their game...and job...than any other battery. Whether it's floor care equipment running all night to ensure clean and safe facilities...or an electric truck lift running 24/7 getting the job done more efficiently...Crown Batteries will be there with the reliable, safe, efficient power that the world has come to depend on in all critical applications.

We serve the World's Power Needs from Fremont, OH. One location for engineering and manufacturing gives us incredible efficiencies and absolute quality control. From this location we serve global battery markets through a sales force and service network strategically positioned in six continents and more than fifty countries. This means we can satisfy any customer's power needs...anywhere in the world.

The Line That Power Built

SLI Products Group:

Primary Applications:

- Electric Vehicles
- Heavy Duty Equipment
- Floor Care Equipment
- Aerial Access & Crane Equipment
- Recreational Marine, RV & Utility Equipment
- Traffic Management Systems
- Renewable Energy Systems
- Car & Light Trucks
- Material Handling Equipment
- UPS & Power Management Systems

SLI Battery Products:

- Commercial Deep Cycle
- Renewable Power
- Commercial Heavy Duty
- Automotive
- Recreational Marine, RV & Utility Starting
- VRLA AGM

Industrial Products Group:

Primary Applications:

- Electric Lift Trucks
- Material Handling Equipment
- Railroad Locomotives
- Underground Mining Equipment

Industrial Battery Products:

- Standard – Flooded Lead Acid
- MaxHaul – High Capacity Flooded Lead Acid
- H2GO – Less Maintenance Industrial Batteries
- Fast Charge/Opportunity Batteries
- EE & EX Rated Batteries

Other Industrial Products:

- PowerHouse Battery Chargers
- PowerHouse Fast Chargers
- Cleaning & Acid Neutralizing Systems
- Battery Watering Systems & Handling Equipment
- Data Recording Devices
- Battery Parts

*Crown Battery's
quality system is
ISO-9001 certified,
which recognizes our capability
to design, develop and build
best-available battery products.
That's why we can provide countless
power solutions that help our customers'
applications work better and last longer.*

Welcome to the World of Power Solutions. Welcome to Crown Battery.

Through its corporate and branch distribution facilities, Crown Battery serves a diverse customer community located throughout the world. We welcome your inquiry through our regional sales and distribution locations and invite you to contact us about your specific battery, charger, or system handling needs.

Sales Office Locations

SLI Products Group:

Waterbury, CT	Montreal, QC
Chicago, IL	Toronto, ONT
Fremont, OH	Santa Fe Springs, CA
Columbus, OH	
Twinsburg, OH (Cleveland)
